

Sampling Distribution Raft

Role	Audience	Format	Topic
θ	\hat{p}	Step by Step Instructions	Drawing a complete sketch of how you, the audience, are distributed around the mean of the sampling distribution.
\bar{x}	μ	Rule book <i>example</i>	Details on how the sample mean \bar{x} is distributed around the center of the sampling distribution
Sampling distribution	A parent population	Story board (4 frames minimum)	How children (samples) are not necessarily like their parents
Statistic	Parameter	Break-up letter	You're too far away from me to be true.

This writing assignment is due on Friday when you hand in your exam. It is worth 1/4 of the exam grade.
